Jeaneanne – Attached is the current marked-up version of the draft Biological Evaluation (BE) that we are preparing for transmission to the FWS. Also included in Rosemary's email below is the information you requested earlier regarding the BE. If you have any question or need any additional information please let us know.

Kelly and Rosemary – Thanks for your continued great work and responsiveness relating to this effort!

Tom

Tom – The BA redline comparison document that Kelly created this morning is attached to this message. In response to Jeaneanne's request for bullets characterizing the changes we're making:

Most of the edits made by the assumption team reflect the following:

- Changing the term from "Biological Assessment" to "Biological Evaluation" to accurately reflect the type of document federal agencies send to the Services to initiate consultation, and to distinguish this as EPA's document rather than the draft BA FDEP prepared as the non-federal representative.

Ex. 5 Deliberative Process (DP)

- Removed some unnecessary background about early coordination events (e.g., mention of meetings without any value-added outcomes)
- General formatting and language edits

I've completed accepting edits on the BE other than those we talked about waiting for package to complete citations. I also created and placed a COMPARE doc in the Draft BA folder.
